

AMBER MINIMALIST BISON

4.800,00 €

This minimalist bison sculpture, handcrafted in amber colored glass submerged crystal clear with a unique craquelé finish, captures the raw, essential spirit of the wild. Its abstract silhouette suggests movement and power, while the warm amber tones and fine cracked texture give it a delicate, almost ethereal presence.

Glass animals have long been a cherished theme in Murano artistry, reimagined by master glassmakers to capture both vitality and luminosity in every curve. Perfect as a statement piece in contemporary interiors, this sculpture brings a sense of calm strength and refined artistic expression. Whether displayed on a shelf, console or gallery pedestal, it speaks to lovers of minimalist design and organic form.
