

CRYSTAL CLEAR AND RUBY JELLYFISH

7.500,00 €

Made of solid transparent crystal glass, this sculpture encloses three jellyfish in crystal and ruby glass. The submerged technique creates a striking suspension effect, enhanced by the presence of delicate air bubbles trapped within the glass, simulating an underwater environment.

Each jellyfish, with its vibrant ruby details outlining the bell and tentacles, adds a touch of color and graceful dynamism to the piece. A unique work that combines transparency, light, and color for a visually stunning result.

Color: clear, ruby

Dimensions: H 22x16x8 cm H 8.7"x6.3"x3.1"
